I started learning French from scratch to better and best at this place. I had a dream to go to France for higher studies and that's the huge reason for me to chose French Tree. Now my dream came true, I got my France Visa. It was one of the best courses i have ever taken , I learnt many and many precious and variable things like, how to better my pronunciation, ask and answer the questions and how to handle some issues and situations in French, it makes the language much easier and more familiar to speak and use in both general life and business..I recommend this course to everyone ,, Thanks a ton Pradeep Sir for your great teaching skills and your guidance.

I learnt french from this place before leaving for Switzerland and Mr Pradeep Soni is the best teacher in Jaipur, I would say. A very hardworking and talented individual. I would recommend him to anyone who really wants to learn French, he is the best. He is like a teacher in a friend, or an strict elder brother who teaches with his full heart and determination. Thank you dear sir for teaching me French in the best way

Pradeep Sir has excellent command over French. He is a very dedicated and encouraging and motivating teacher. Classes at French tree are very interesting and pace of class is student centric. I am so glad that French tree helped me learn French in a very fun way. I feel more confident about myself.

I took private French lessons (via google meet due to the pandemic) with Pradeep Soni SIR before taking the TEF. My French was not really good even after completed B1 level from Chandigarh. After searching lots of option available on Google for TEF i was reached here and from the begging of my lesson i appreciated his regularity, discipline and his knowledge on TEF pattern that i ever found and must say that he has been great so far. All of my questions are promptly answered and he was concerned about his students. My French level has no doubt improved a lot! I scored at the B2 level
